

Board Nomination – 2025

Background

The *Australian Council for Health, Physical Education and Recreation (ACHPER)* is a national professional association that represents individuals working across health education, physical education, recreation, sport, dance, community fitness, and movement sciences. As a membership-based, non-profit organisation, we are governed by a volunteer board and supported by a network of state and territory branches.

ACHPER NSW is dedicated to providing high-quality PDHPE professional learning. Revenue generated from our activities is reinvested into developing programs, resources, and support for our members.

Our vision: Quality health and physical education for every student in NSW & ACT.

Our purpose: Support educators to deliver innovative and effective health and physical education programs.

Current environment

ACHPER NSW is experiencing a significant growth phase, having recorded our highest income to date and continuing on an upward trajectory. To leverage this momentum, we are seeking to diversify the skills represented on the *ACHPER NSW* Board. Our focus remains on fostering growth through innovation and the effective delivery of health and physical education across NSW and ACT, and we aim to expand our board's expertise to support this mission.

Board positions

The board comprises 12 positions—10 elected member roles and 2 appointed roles. Currently, four positions are open for nomination, with one position being allocated to ACT. Board appointments have a term limit of two years.

Board meetings are conducted virtually once or twice per school term. Each board member is also responsible for contributing to a sub-committee aimed at driving business growth. Sub-committees typically meet no more than once a month for approximately one hour, depending on the feedback and input required.

[Skills required](#)
